REPORT OF INDEPENDENT AUDITORS

To the Members of the Board of Directors of
Metropolitan Area EMS Authority

Opinion

We have audited the accompanying financial statements of Metropolitan Area EMS Authority ("the Authority"), which comprise the statements of net position as of September 30, 2022 and 2021, and the related statements of revenues, expenses, and changes in net position, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of the Authority as of September 30, 2022 and 2021, and the changes in net position and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Authority and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance GAAP; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for one year after the date that the financial statements are issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Authority's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Other Information

Required Supplementary Information

GAAP requires that the management's discussion and analysis on pages 4 through 10 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the basic financial statements as a whole. The supplemental information and other financial information are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplemental information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audits of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

The other financial information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This Management's Discussion and Analysis ("MD&A") is intended to assist the reader in assessing whether the financial position of Metropolitan Area EMS Authority (the "Authority") has improved or deteriorated as a result of the year's activities. The analysis should comment on changes in funds and significant budget variances. The analysis should describe capital asset and long-term debt activity. Finally, it should conclude with a description of currently known facts, decisions, or conditions that are expected to have a significant effect on financial positions or results of operations.

All of the information in this section of the financial report is the responsibility of the Authority's management.

Basic Financial Statements

The three basic financial statements presented in this financial report are: the statements of net position; the statements of revenues, expenses, and changes in net position; and the statements of cash flows.

The statements of net position report all assets, deferred outflows, liabilities, and deferred inflows, with the net result presented as net position.

A "special-purpose government engaged in business-type activities" is intended to recover from "customers" a significant portion of the cost of providing goods and services. To help financial statement users assess the degree to which this goal has been achieved, the statements of revenues, expenses, and changes in net position, is presented in a format similar to the income statement of a for-profit business enterprise. Revenues and expenses are segregated into *operating* and *nonoperating* classifications. Net operating revenues are amounts received from patient service fees and subscription and program income, less estimated uncollectible fees. Operating expenses are the costs incurred by the Authority to provide emergency and non-emergency transportation within our member jurisdictions. Nonoperating revenues and expenses include other income, gain (loss) on disposition of assets, and interest expense.

The statements of cash flows provide financial statement users with the information to assess the adequacy of the Authority's cash flows, including the ability to generate sufficient cash to meet its obligations in a timely manner. Cash flows are classified into four categories:

- Cash flows from operating activities (operating revenues and expenses).
- Cash flows from non-capital financing activities – such as receipts from subsidies and community health programs.

- Cash flows from capital and related financing activities. This category includes capital expenditure outlays; proceeds from capital-related debt; debt service payments on capital-related debt; and proceeds from the sale of capital assets and insurance recoveries.

- Cash flows from investing activities - interest on investment activities. The Authority did not have any cash flows related to this category.

Statements of Net Position

The statements of net position include all assets and liabilities, with the net result presented as net position. Over time, increases or decreases in net position is one indicator of the improvement or erosion of the Authority's financial health.

	September 30,	
	2022	**2021**
Total current assets	$ 33,884,936	$ 31,967,310
Total capital assets, net, at cost	40,781,435	38,154,706
Total assets	74,666,371	70,122,016
Total current liabilities	6,831,246	5,014,622
Total noncurrent liabilities	10,270,924	12,223,011
Total liabilities	17,102,170	17,237,633
Net investment in capital assets	28,558,970	24,037,044
Restricted	475,471	475,471
Unrestricted	28,529,760	28,371,868
Total net position	$ 57,564,201	$ 52,884,383

During 2022, the financial position of the Authority saw an increase in net position of $4,679,818, primarily resulting from an increase in total assets of $4,544,355. The increase in total assets is due to a net increase in Net Accounts Receivable the Authority expects to collect of $4.2 million and a net increase in capital assets of $2.6 million. Total capital assets purchased in 2022 was $4.4 million.

Current assets consist of cash and cash equivalents, restricted cash, certificate of deposit, receivables, supplies inventory, and prepaid expenses. Cash and cash equivalents are maintained at levels necessary to cover current liabilities as they come due. Restricted cash relates to the Emergency Physicians Advisory Board ("EPAB") amount of cash on hand. Receivables are from services provided and the state of Texas Ambulance Supplemental Payment Program ("ASPP") for governmental entities; supplies inventory is the amount of supplies on hand at the end of the fiscal year, while prepaid expenses are primarily attributed to annual contracts for computer maintenance software.

Current liabilities are comprised of current portion of long-term debt, current portions of financing arrangements, accounts payable and accrued liabilities, and unearned revenue. Accounts payable and accrued liabilities are the liabilities, at September 30, for goods and services received prior to the end of the fiscal year. Unearned revenue is composed of deferred subscriptions revenue unearned prior to September 30. Subscriptions are being amortized over the period during which the subscriber is allowed to use the Authority's services. Current liabilities increased from the prior year primarily due to the increase in accounts payable year over year.

Noncurrent liabilities are the portions of the long-term debt and financing arrangements which are due in the future. The noncurrent liabilities decreased due to no additions in 2022 and the continued paying down of principle of loans outstanding.

Net position consists of net investment in capital assets, restricted net position, and unrestricted net position. The net investment in capital assets is the total of property and equipment, less accumulated depreciation, and any related debt and financing arrangements. The restricted net position is the total amounts related to EPAB, which are restricted in accordance with the Interlocal Agreement. Unrestricted net position is the remaining net position available for use by the Authority for which a specific use has not been designated by the Authority.

	September 30,	
	2021	**2020**
Total current assets	$ 31,967,310	$ 33,946,230
Total capital assets, net, at cost	38,154,706	37,323,093
Total assets	70,122,016	71,269,323
Total current liabilities	5,014,622	4,849,689
Total noncurrent liabilities	12,223,011	11,217,963
Total liabilities	17,237,633	16,067,652
Net investment in capital assets	24,037,044	24,959,913
Restricted	475,471	475,471
Unrestricted	28,371,868	29,766,287
Total net position	$ 52,884,383	$ 55,201,671

During 2021, the financial position of the Authority saw a decrease in net position of $2,317,288, primarily resulting of a decrease in total assets of $1,147,307 and an increase in long-term debt of $1,005,048. The decrease in total assets is due to a decrease in patient account receivables of $1,636,866. The increase in long-term debt is due to financing the 2021 purchase of ambulances through a financing arrangement.

Current assets consist of cash and cash equivalents, restricted cash, certificate of deposit, receivables, supplies inventory, and prepaid expenses. Cash and cash equivalents are maintained at levels necessary to cover current liabilities as they come due. Restricted cash relates to the EPAB amount of cash on hand. Receivables are from services provided and the state of Texas ASPP for governmental entities; supplies inventory is the amount of supplies on hand at the end of the fiscal year, while prepaid expenses are primarily attributed to annual contracts for computer maintenance software.

Current liabilities are comprised of current portions of long-term debt, current portions of financing arrangements, accounts payable and accrued liabilities, and unearned revenue. Accounts payable and accrued liabilities are the liabilities, at September 30, for goods and services received prior to the end of the fiscal year. Unearned revenue is composed of deferred subscriptions revenue unearned prior to September 30. Subscriptions are being amortized over the period during which the subscriber is allowed to use the Authority's services. Current liabilities increased from the prior year primarily due to the increase in the current portion of long-term debt due to financing arrangements for the 2021 ambulance purchase.

Noncurrent liabilities are the portions of the long-term debt and financing arrangements which are due in the future. The noncurrent liabilities increased due to proceeds from financing arrangements for ambulances in 2021.

Net position consists of net investment in capital assets, restricted net position, and unrestricted net position. The net investment in capital assets is the total of property and equipment, less accumulated depreciation, and any related debt and financing arrangements. The restricted net position is the total amounts related to EPAB, which are restricted in accordance with the Interlocal Agreement. Unrestricted net position is the remaining net position available for use by the Authority for which a specific use has not been designated by the Authority.

Statements of Revenues, Expenses, and Changes in Net Position

The statements of revenues, expenses, and changes in net position present the revenues earned and the expenses incurred during the year. Activities are reported as either operating or nonoperating.

	Year Ended September 30,	
	2022	**2021**
Operating revenues	$ 236,416,078	$ 200,845,536
Less estimated uncollectible fees	(175,384,284)	(152,256,024)
Net operating revenues	61,031,794	48,589,512
Operating expenses	57,005,553	52,657,929
Operating income (loss)	4,026,241	(4,068,417)
Total nonoperating revenues, net	653,577	1,751,129
Change in net position	4,679,818	(2,317,288)
Net position, beginning of year	52,884,383	55,201,671
Net position, end of year	$ 57,564,201	$ 52,884,383

An analysis of the accrual basis operating budget revenues and expenditures shows that for fiscal 2022, budgeted total net operating revenues were $52,529,542. An analysis of the actual results compared to the operating budget shows net operating revenues of $61,031,794, which is $8,502,252, or 16.2%, over budgeted net operating revenues. The majority of this variance is due to gross patient revenue over budget by 12%, billable patient encounters over budget by 4% and a larger than expected cash collections from prior year 2021 of $3.2 million.

Operating expenses, excluding depreciation and interest expenses, for the year ended September 30, 2022, of $53,325,193 were $4,408,737, or 9%, over budgeted expenses of $48,916,456. The majority of this variance is due to higher than expected salaries and wages of $2.8 million, health insurance claims paid of $567 thousand, and fuel of $731 thousand.

Operating revenues consist mainly of patient services fees and other, which includes ASPP and subscription income. Patient service fees are gross billings to the Authority's customers for ambulance services provided. The subscription income is annual dollars received from the Authority's customers for a household membership. Operating revenues also includes other program income, which consists primarily of fees from hospital patients for service.

Operating expenses are from field operations, ambulance fleet operations, general and administrative, and depreciation. The field operation expenses are expenses the Authority incurred for the field personnel and also the office staff for the departments of Clinical, Community Health, Communication Center, Health & Safety, Logistics and Deployment. Ambulance fleet operations expenses are expenses incurred to maintain the ambulances.

General and administrative expenses are the expenses incurred to manage the general operational functions of the Authority, including billing, collections, Human Resources, Transformation Office and IT, and infrastructure maintenance. Depreciation expense is provided on a straight-line basis, and the methods are designed to amortize the cost of assets over their estimated useful lives.

Total nonoperating revenues consist primarily of interest expense, other income, NCTTRAC deployments, and gain (loss) on disposal of assets. The increase in nonoperating revenues primarily relates to additional revenues from the ASPP Medicaid Cost Report reimbursement.

	Year Ended September 30,	
	2021	**2020**
Operating revenues	$ 200,845,536	$ 172,035,590
Less estimated uncollectible fees	(152,256,024)	(125,389,694)
Net operating revenues	48,589,512	46,645,896
Operating expenses	52,657,929	48,269,880
Operating loss	(4,068,417)	(1,623,984)
Total nonoperating revenues, net	1,751,129	1,526,187
Change in net position	(2,317,288)	(97,797)
Net position, beginning of year	55,201,671	55,299,468
Net position, end of year	$ 52,884,383	$ 55,201,671

An analysis of the accrual basis operating budget revenues and expenditures shows that for fiscal 2021, budgeted total net operating revenues were $49,717,671. An analysis of the actual results compared to the operating budget shows net operating revenues of $48,589,512, which is $1,128,159, or 2.3%, under budgeted net operating revenues. The majority of this variance is due to a larger than expected provision for uncollectible accounts.

Operating expenses, excluding depreciation and interest expenses, for the year ended September 30, 2021, of $48,957,860 were $2,098,475, or 4.4%, over budgeted expenses of $46,859,385. The majority of this variance is due to incentive bonuses paid to field employees and a mid-year salary adjustment to meet competitive salary adjustments due to the COVID pandemic.

Operating revenues consist mainly of patient services fees and other, which includes ASPP and subscription income. Patient service fees are gross billings to the Authority's customers for ambulance services provided. The subscription income is annual dollars received from the Authority's customers for a household membership. Operating revenues also includes other program income, which consists primarily of fees from hospital patients for service.

Operating expenses are from field operations, ambulance fleet operations, general and administrative, and depreciation. The field operation expenses are expenses the Authority incurred for the field personnel and also the office staff for the departments of Clinical, Community Health, Communication Center, Health & Safety, Logistics and Deployment. Ambulance fleet operations expenses are expenses incurred to maintain the ambulances.

General and administrative expenses are the expenses incurred to manage the general operational functions of the Authority, including billing, collections, Human Resources, Transformation Office and IT and infrastructure maintenance. Depreciation expense is provided on a straight-line basis and the methods are designed to amortize the cost of assets over their estimated useful lives.

Total nonoperating revenues consist primarily of interest expense, other income, Provider Relief Funds received, NCTTRAC deployments, and gain (loss) on disposal of assets. The increase in nonoperating revenues primarily relates to additional revenues from additional NCTTRAC deployments from the prior year.

Capital Assets and Debt Administration

Capital Assets

Capital assets consist of property and equipment, less accumulated depreciation. The depreciation methods are designed to amortize the cost of assets over their estimated useful lives. Estimated useful lives of the major categories of property and equipment during 2022 are as follows: communication equipment 3 to 10 years, data processing equipment and software 3 to 7 years, office furniture and equipment 7 years, building and improvements 10 to 30 years, and medical equipment, ambulance fleet, and fleet equipment 3 to 20 years.

Capital assets increased from 2021 to 2022 primarily due to additions to the ambulance fleet (approximately $2.3 million) and additions to medical equipment (approximately $4.2 million). Several of the authority's ambulance chassis were replaced during the current year, which resulted in disposals of approximately $462,000 that offset the ambulance purchases in 2022. MedStar also refreshed the medical equipment associated with ambulance stretcher units, which resulted in disposals of approximately $2 million that offset the new addition of stretcher units.

Capital assets increased from 2020 to 2021 primarily due to additions to the ambulance fleet (approximately $3.8 million) and additions to buildings and improvements (approximately $580,000). Several of the authority's ambulance chassis were replaced during the current year, which resulted in disposals of approximately $475,000 that offset the ambulance purchases in 2021.

At September 30, 2022, capital assets before depreciation, which includes both depreciable and non-depreciable assets, totaled $68,239,242. This is an increase of $4,424,608 over 2021. Accumulated depreciation increased by $1,797,879 to $27,457,807 at September 30, 2022.

At September 30, 2021, capital assets before depreciation, which includes both depreciable and non-depreciable assets, totaled $63,814,634. This is an increase of $4,110,185 over 2020. Accumulated depreciation increased by $3,278,572 to $25,659,928 at September 30, 2021.

During 2021, buildings and improvements increased $580,513 and ambulance fleet increased by approximately $3,321,672 related to fleet acquisitions and upgrades made throughout the year. Due to these additions, depreciation expense also increased.

More detailed information on capital assets can be found in Note E of the financial statements.

Long-Term Debt

At September 30, 2022, the Authority had approximately $12.2 million outstanding on its notes payable, which is a decrease of approximately ($1.9 million) from the prior year. The decrease in the balance resulted from the debt service of the notes payable. Notes payable consists of two term notes and two financing arrangements for the ambulance purchases in 2020 and 2021.

As September 30, 2021, the Authority had approximately $14.1 million outstanding on its notes payable, which is an increase of approximately $1.75 million from the prior year. The increase in the balance resulted from the financing arrangement for the ambulance purchases in 2021. Notes payable consists of two term notes and two financing arrangements for the ambulance purchases in 2020 and 2021.

Economic Factors and Next Year's Rates

The Authority's mission is to manage the assets and resources under its stewardship in order to provide emergency medical service and transportation to individuals in Member Municipalities in Denton, Johnson, Parker, Tarrant, and Wise counties. It is the intent of the Authority to establish its fees and other charges at a level to recover the cost of its activities, including renewal and replacement of its facilities and equipment. MedStar will continue to monitor and analyze the Fair Health Consumer Database and continue to adjust rates to the average rates set forth for the applicable year.

Requests for Information

This financial report is designed to provide a general overview of the Authority's finances. Questions concerning any of this information provided in this report or requests for additional financial information should be addressed to the Chief Financial Officer, 2900 Alta Mere Drive, Fort Worth, Texas 76116.

Principal paid on capital long-term debt	(1,895,197)	(755,701)
Principal paid on leases	-	(457,208)
Interest paid on capital long-term debt	(408,223)	(345,790)
Capital expenditures	(5,108,152)	(1,589,523)
Net cash used in capital and related financing activities	(7,348,353)	(3,042,320)
Net decrease in cash and cash equivalents	(3,290,125)	(381,025)
Cash and cash equivalents at beginning of year	17,781,918	18,162,943
Cash and cash equivalents at end of year	$ 14,491,793	$ 17,781,918
Reconciliation of operating loss to net cash provided by operating activities		
Operating income (loss)	$ 4,026,241	$ (4,068,417)
Adjustments to reconcile operating income (loss) to net cash provided by operating activities		
Depreciation	3,680,361	3,700,069
Changes in assets and liabilities		
Patient and other accounts receivable	(4,246,553)	1,636,866
Supplies inventory	(26,429)	(24,491)
Prepaid expenses	(934,769)	(13,456)
Accounts payable and accrued liabilities	421,827	(602,271)
Unearned revenue	(14,284)	(10,230)
Net cash provided by operating activities	$ 2,906,394	$ 618,070
Supplemental Disclosure of Cash Flow Information		
Cash paid during the year for interest	$ 408,223	$ 345,790
Schedule of non-cash capital and related financing activities:		
Non-cash proceeds from sale of capital assets	$ 498,250	$ -
Capital assets acquired via accounts payable	$ 1,850,441	$ 28,000

See accompanying notes to financial statements.

METROPOLITAN AREA EMS AUTHORITY

NOTES TO FINANCIAL STATEMENTS

September 30, 2022 and 2021

A. Nature of Operations

Metropolitan Area EMS Authority (the "Authority"), formerly known as Area Metropolitan Ambulance Authority, provides emergency medical service and transportation to individuals in Member Municipalities in Denton, Johnson, Parker, Tarrant, and Wise counties. The Authority's accounts receivable are due from county residents, Medicare, Medicaid, insurance providers, and the state of Texas Health and Human Services Commission.

B. Significant Accounting Policies

The financial statements of the Authority are presented in accordance with accounting principles generally accepted in the United States of America ("GAAP") applicable to independent enterprise agencies as prescribed by the Governmental Accounting Standards Board ("GASB"). The following is a summary of the nature of operations and significant accounting policies:

Reporting Entity

For financial reporting purposes, management has considered all potential component units. The decision whether to include a potential component unit in the reporting entity was made by applying the criteria set forth in GASB Statement No. 61, *The Financial Reporting Entity: Omnibus; an amendment of GASB Statements No. 14 and No. 34*.

No entities met the above requirements to be considered component units. In addition, the Authority is not a component unit of any other governmental entity.

Measurement Focus and Basis of Accounting

The Authority uses the economic resources measurement focus. This means that all assets, liabilities, net position, revenues, and expenses are accounted for using the accrual basis of accounting.

Revenue is recognized when earned, and expenses are recognized when they are incurred.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

B. Significant Accounting Policies – continued

Use of Estimates – continued

Included in the accompanying financial statements are estimates of uncollectible patient services fees based upon past collections history of the Authority and estimates of self-insurance claims incurred, but not paid, based on past history and other factors. It is reasonably possible that the actual uncollectible patient services fees and self-insurance claims incurred, but not paid, may differ and that the difference may be material to the financial statements.

The Authority's policy is to regularly review the allowance for uncollectible accounts. This review during 2022 indicated the 2021 allowance for uncollectible accounts was overstated based on actual cash collections. As a result, the Authority revised the allowance for uncollectible accounts as of September 30, 2022. The effect of this change in estimate was a decrease to the 2022 provision for uncollectible fees of approximately $3,178,000. There was no such change in estimate during 2021.

Cash Flows Presentation

For purpose of the statement of cash flows, investments and time deposits with maturities of three months or less when purchased are considered cash equivalents.

Investments

Investments with readily determinable fair values are stated at fair value with realized and unrealized gains and losses included in the statement of revenues, expenses, and changes in net position.

The Authority measures its investments at fair value. Fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability.

A three-tier fair value hierarchy is established as a basis for considering such assumptions for inputs used in the valuation methodologies in measuring fair value as follows:

> Level 1 – Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets.
>
> Level 2 – Other inputs that are based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant inputs are observable in the markets or can be derived from observable market data. Where applicable, these models project future cash flows and discount the future amounts to a present value using market-based observable inputs including interest rate curves, foreign exchange rates, and credit ratings.

B. Significant Accounting Policies – continued

Investments – continued

Level 3 – inputs that are unobservable for the particular asset or liability due to little or no market activity and are significant to the fair value of the asset or liability. These inputs reflect assumptions that market participants would use when valuing the particular asset or liability.

The fair value hierarchy also requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs.

At September 30, 2022, the Authority's investments consisted of a certificate of deposit that matures in November 2023. The certificate of deposit is valued at the principal balance plus accrued interest, which approximates fair value, and is therefore considered Level 2 within the fair value hierarchy.

Investments measured at fair value on a recurring basis at September 30,:

	2022	2021
	Level 2	Level 2
Certificate of deposit	$ 4,246,762	$ 4,246,762

Allowance for Uncollectible Accounts

An allowance for uncollectible billed accounts receivable is provided based on an analysis of historical trends.

Supplies Inventory

Supplies inventory are stated at the lower of cost (first-in, first-out) or net realizable value.

Capital Assets

Capital assets having an original cost of $5,000 or more and over one year of useful life are capitalized. All purchased capital assets are valued at cost where historical records exist. Donated fixed assets are valued at their estimated fair value on the date received. Maintenance, repairs, renewals, and betterments which do not enhance the value or increase the basic productive capacity of assets are charged to expense as incurred.

Depreciation is provided on the straight-line basis. Depreciation methods are designed to amortize the cost of assets over their estimated useful lives.

B. Significant Accounting Policies – continued

Capital Assets – continued

Estimated useful lives of major categories of capital assets are as follows for the years ended September 30,

Category	2022 Estimated Life	2021 Estimated Life
Buildings and improvements	10 – 30 Years	10 – 30 Years
Medical equipment	5 – 10 Years	7 – 10 Years
Ambulance fleet	3 – 5 Years	3 – 5 Years
Fleet equipment	5 – 20 Years	5 – 20 Years
Communications equipment	3 – 10 Years	3 – 10 Years
Data processing equipment and software	3 – 7 Years	3 – 7 Years
Office furniture and equipment	7 Years	7 Years

Long-Lived Assets

The Authority evaluates its long-lived assets, including for impairment, whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of these assets is measured by comparison of their carrying amounts to future undiscounted cash flows that the assets are expected to generate. If long-lived assets are considered to be impaired, the impairment to be recognized equals the amount by which the carrying value of the asset exceeds its fair market value and is recorded in the period the determination was made. Based upon management's assessment, there was no impairment of long-lived assets at September 30, 2022 and 2021.

Accumulated Vacation and Sick Leave

Employees of the Authority earn vacation and sick leave. Unused vacation leave up to 240 hours may be carried over to subsequent periods. Employees are compensated for unused vacation leave, if separating, if they have worked for the Authority for at least 90 consecutive days unless they have changed their status to part-time prior to separation. However, employees will not be compensated for their unused sick leave.

B. Significant Accounting Policies – continued

Leases

In June 2017, GASB issued guidance (GASB Statement No. 87: *Leases*) to increase the usefulness of financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under the standard, a lessee is required to recognize a right to use ("ROU") lease liability and an intangible ROU lease asset on the statement of net position, thereby enhancing the relevance and consistency of information about leasing activities. Under the standard, a contract that transfers ownership of the underlying asset to the lessee by the end of the contract should be reported as a financed purchase of the underlying asset by the lessee. Under the standard, a contract with a duration of 12 months or less will not record ROU assets or liabilities. Under the standard, disclosures are required to meet the objective of enabling users of financial statements to assess the amount, timing, and uncertainty of cash flows arising from leases.

The Authority adopted this standard effective October 1, 2021. Under the standard, the capital lease previously reported by the Authority for the acquisition of ambulances did not meet the definition of a lease and was reclassified to a financing arrangement.

Operating Revenues

Operating revenues generally consist mainly of patient services fees, including the state of Texas Ambulance Supplemental Payment Program ("ASPP"), membership income, and program income. Patient service fees are gross billings to the Authority's patients and insurance providers, including Medicare, Medicaid, and third parties, for ambulance services provided. The membership income is annual dollars received from the Authority's customers for a household membership. Program income consists of fees from patients of hospitals for service.

Nonoperating Revenues

Nonoperating revenues are those revenues that do not relate to the Authority's nature of operations. These consist of subsidy revenues paid by cities to reduce the cost of emergency medical services to their residents and community health programs initiated by the Authority as a means to provide certified health advice for residents and reduce unnecessary transports, and other income which includes fees for placing ambulances in high-traffic areas to lower response times and fees from hospitals for consulting non-emergency patients to avoid a hospital stay.

Unearned Revenue

Unearned revenue is composed of memberships received but unearned. Memberships are amortized over the period during which the member is allowed to use the Authority's services.

B. Significant Accounting Policies – continued

Net Position

Net position represents the difference between assets and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing and / or lease liabilities used for the acquisition, construction, or improvements of those assets, and adding back unspent proceeds. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislations adopted by the Authority or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Unrestricted net position represents the accumulated excess of revenue over expenses.

Recently Issued Accounting Pronouncements

New accounting standards were effective for the fiscal year ended September 30, 2021. However, the Authority has determined these standards have no impact on the financial statements. The new accounting standards effective for the year ended September 30, 2021, are summarized below.

GASB Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*, establishes accounting requirements for interest cost incurred before the end of a construction period.

GASB Statement No. 90, *Majority Equity Interests – an amendment of GASB Statements No. 14 and No. 61*, provides improvement of the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units.

GASB No. 98, *The Annual Comprehensive Financial Report*. This statement was issued in October 2021 and establishes the term annual comprehensive financial report and its acronym ACFR. This new term and acronym replace instances of comprehensive annual financial report and its acronym in generally accepted accounting principles for state and local governments. This statement is effective for fiscal years ending after December 15, 2021, but earlier application is encouraged.

New accounting standards were effective for the fiscal year ended September 30, 2022. However, the Authority has determined these standards have no impact on the financial statements. The new accounting standards effective for the year ended September 30, 2022, are summarized below.

GASB No. 87, *Leases*. This statement was issued in June 2017 and establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, thereby enhancing the relevance and consistency of information about governments' leasing activities. Under the standard, a contract that transfers ownership of the underlying asset to the lessee by the end of the contract should be reported as a financed purchase of the underlying asset by the lessee.

B. Significant Accounting Policies – continued

Reclassifications

Certain prior year amounts have been reclassified to conform to the current year presentation. These reclassifications had no effect on previously reported results of operations.

C. Cash and Investments

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The Authority's investment policy does not contain policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits: the policy requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least the bank balance less the Federal Deposit Insurance Corporation ("FDIC") insurance at all times.

As of September 30, 2022 and 2021, the carrying amount of the Authority's cash on hand was $14,491,788 and $17,781,918, respectively, and the bank balance was $16,355,536 and $19,027,888, respectively.

D. Defined Contribution Pension Plan

The Authority has two defined contribution plans created in accordance with applicable sections of the Internal Revenue Code. The plans were previously administered by ICMA Retirement Corporation prior to all assets of both plans being transferred to new plans administered by MassMutual Retirement Services on February 2, 2015. All full-time employees are eligible for participation in these plans after six months of employment. The plans require that the Authority match a portion of participant contributions annually. The Authority's contributions for the years ended September 30, 2022 and 2021, were approximately $975,000 and $972,000 (which includes approximately $85,000 and $159,000 of forfeitures allocated to participant accounts), respectively. Employee contributions for the years ended September 30, 2022 and 2021, were approximately $972,000 and $969,000, respectively.

E. Capital Assets Activity

Capital asset activity for the Authority for the years ended September 30, 2022 and 2021, was as follows:

	Beginning Balance 10/1/2021	Additions	Retirements	Transfers	Ending Balance 9/30/2022
Capital assets not being depreciated:					
Land	$ 1,644,946	$ -	$ -	$ -	$ 1,644,946
Total capital assets not being depreciated	1,644,946	-	-	-	1,644,946
Capital assets being depreciated:					
Communication equipment	3,864,245	64,289	-	-	3,928,534
Data processing equipment and software	8,661,956	142,322	-	-	8,804,278
Office furniture and equipment	2,571,565	21,205	-	-	2,592,770
Buildings and improvements	24,777,652	110,562	-	-	24,888,214
Ambulance fleet, medical, and fleet equipment	22,294,270	6,620,212	2,533,982	-	26,380,500
Total capital assets being depreciated	62,169,688	6,958,590	2,533,982	-	66,594,296
Total at historical cost	63,814,634	6,958,590	2,533,982	-	68,239,242
Less accumulated depreciation:					
Communication equipment	2,955,722	257,459	-	-	3,213,181
Data processing equipment and software	6,527,046	722,802	-	-	7,249,848
Office furniture and equipment	2,209,721	124,393	-	-	2,334,114
Buildings and improvements	4,839,333	900,639	-	-	5,739,972
Ambulance fleet, medical, and fleet equipment	9,128,106	1,675,068	1,882,482	-	8,920,692
Total accumulated depreciation	25,659,928	3,680,361	1,882,482	-	27,457,807
Capital assets, net, at cost	$38,154,706	$ 3,278,229	$ 651,500	$ -	$40,781,435

E. Capital Assets Activity – continued

	Beginning Balance 10/1/2020	Additions	Retirements	Transfers	Ending Balance 9/30/2021
Capital assets not being depreciated:					
Land	$ 1,644,946	$ -	$ -	$ -	$ 1,644,946
Total capital assets not being depreciated	1,644,946	-	-	-	1,644,946
Capital assets being depreciated:					
Communication equipment	3,731,088	133,157	-	-	3,864,245
Data processing equipment and software	8,587,113	74,843	-	-	8,661,956
Office furniture and equipment	2,571,565	-	-	-	2,571,565
Buildings and improvements	24,197,139	580,513	-	-	24,777,652
Ambulance fleet, medical, and fleet equipment	18,972,598	3,796,403	474,731	-	22,294,270
Total capital assets being depreciated	58,059,503	4,584,916	474,731	-	62,169,688
Total at historical cost	59,704,449	4,584,916	474,731	-	63,814,634
Less accumulated depreciation:					
Communication equipment	2,711,192	244,530	-	-	2,955,722
Data processing equipment and software	5,739,849	787,197	-	-	6,527,046
Office furniture and equipment	1,889,663	320,058	-	-	2,209,721
Buildings and improvements	3,974,836	864,497	-	-	4,839,333
Ambulance fleet	8,065,816	1,483,787	421,497	-	9,128,106
Total accumulated depreciation	22,381,356	3,700,069	421,497	-	25,659,928
Capital assets, net, at cost	$37,323,093	$ 884,847	$ 53,234	$ -	$38,154,706

F. Risk Management and Commitments

The Authority is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. To mitigate the risk of loss, the Authority carries commercial insurance. There were no significant reductions in coverage during the years ended September 30, 2022 or 2021.

G. Long-Term Debt

In June 2013, the Authority issued General Improvement Revenue Bonds. The issuance was for $8,000,000, which consisted of an equipment loan of $3,200,000 and a construction loan available for draws of up to $4,800,000, both of which were for the purpose of providing funds for the purchase of land and expenses associated with the construction of the Authority's administrative headquarters. The equipment loan incurred interest at a rate of 2.27% and was to be paid in monthly installments of $38,095 plus accrued interest, with a balloon payment required at maturity. The construction loan incurred interest at a rate of 2.27% and was to be paid in monthly installments of $28,234 plus accrued interest, with a balloon payment required at maturity. The loans were collateralized by patient accounts receivable, supplies inventory, and capital assets. Effective November 28, 2018, the Authority entered into a new term note in the amount of $4,450,000 for the purpose of refinancing these notes with a new financial institution.

The term note maturity date was November 28, 2020. However, on October 29, 2020, the term note was amended, and the new monthly installment is $39,364 plus accrued interest at a rate of 3.214%, with a balloon payment required at maturity. The amended maturity date is October 1, 2030. The outstanding balance of the term note at September 30, 2022 is $3,330,096. The term note is collateralized by a certificate of deposit.

Effective November 28, 2018, the Authority entered into a line of credit agreement available for draws up to $20,000,000 for the purchase of ambulances, land, and construction of future deployment centers. On October 29, 2020, the line of credit agreement was amended and converted to a term note to be paid in monthly installments of $61,054 plus accrued interest at a rate of 3.214%, with a balloon payment required at maturity. The amended maturity date is October 1, 2030. The outstanding balance of the term note at September 30, 2022, is $5,200,285. The note is collateralized by the deed of trust of the land purchased for the deployment center. The Authority is required to maintain certain debt covenants and financial ratios under the loans. At September 30, 2022, the Authority was in compliance with these covenants and financial ratios.

G. Long-Term Debt – continued

The annual requirements to amortize all long-term debt outstanding as of September 30, 2022, are as follows:

Year Ending September 30	Principal	Interest	Total
2023	$ 940,322	$ 264,687	$ 1,205,009
2024	970,771	234,238	1,205,009
2025	1,003,536	201,473	1,205,009
2026	1,036,730	168,279	1,205,009
2027	1,071,023	133,986	1,205,009
2028 - 2030	3,507,999	185,238	3,693,237
Total	$ 8,530,381	$ 1,187,901	$ 9,718,282

The following is a summary of long-term debt transactions of the Authority for the years ended September 30, 2022 and 2021:

Beginning Balance 10/1/2021	Increases	Decreases	Ending Balance 9/30/2022	Due Within One Year
$ 9,441,295	$ -	$ (910,914)	$ 8,530,381	$ 940,322

Beginning Balance 10/1/2020	Increases	Decreases	Ending Balance 9/30/2021	Due Within One Year
$10,196,996	$ -	$ (755,701)	$9,441,295	$ 910,215

During 2021 and 2020, the Authority entered into financing arrangements to purchase vehicles. These arrangements transfer ownership upon maturity and expire at various dates through 2026. The Authority did not enter into any new financing arrangements during 2022. Assets totaling approximately $5,133,579 are included in the Ambulance Fleet section of capital assets, in the accompanying statements of financial position at September 30, 2022 and 2021. Depreciation expense for financed assets for the years ended September 30, 2022 and 2021, was approximately $676,793 and $453,333, respectively. Interest expense for assets acquired under these financing arrangements for the years ended September 30, 2022 and 2021, was approximately $113,977 and $58,271, respectively.

G. Long-Term Debt – continued

Future minimum annual payments under the financing arrangements consisted of the following at September 30, 2022:

Year Ending September 30	Principal	Interest	Total
2023	$ 1,011,219	$ 87,194	$ 1,098,413
2024	1,038,731	59,682	1,098,413
2025	1,066,993	31,420	1,098,413
2026	575,141	7,941	583,082
2027	-	-	-
Total	$ 3,692,084	$ 186,237	$ 3,878,321

H. Commitments and Contingencies

Ambulance Purchase Agreement

Effective February 28, 2018, the Authority entered into a five-year purchase agreement relating to the production and delivery of certain ambulance modules. The Authority has agreed to purchase three ambulance units per quarter during the period October 1, 2018 through February 28, 2023. Based on the agreement, the price per ambulance module is approximately $150,000, and the price will increase by 2% every 12 months after the first year. The first 12-month period will start on the effective date of the purchase agreement.

Legal Considerations

In the normal course of business, the Authority may be subject to allegations that may result in litigation. Some of these allegations may not be covered or are only partially covered by insurance policies. Based upon advice of counsel, management records an estimate of the ultimate expected loss, if any, for these matters.

I. Insurance Plan

The Authority became self-insured for health care benefits beginning January 1, 2014. Effective October 1, 2019, the Authority contracts with UMR, Inc. ("UMR") to facilitate all claims. The Authority is solely responsible for all claim costs, both reported and unreported. UMR provides administrative services to the Authority including claims administration and customer service. The Authority is protected against higher-than-expected claims costs through the purchase of stop-loss coverage of $175,000 per covered person. Liabilities include an amount for claims that have been incurred but not reported ("IBNR"). The resulting liability calculation is not an exact amount as it depends on many complex factors, such as inflation, changes in legal doctrines, and damage awards.

I. Insurance Plan – continued

Accordingly, claim liabilities are evaluated periodically. At September 30, 2022 and 2021, the IBNR liability of approximately $516,000 and $325,000, respectively, is recorded within accounts payable and accrued liabilities in the accompanying statements of net position. The following summarizes the self-insured plan claims and liabilities for health care benefits.

Year Ended September 30,	Beginning of Year Accrual	Current Year Estimates	Claim Payments	End of Year Accrual
2022	$ 325,034	$ 4,111,968	$ (3,921,446)	$ 515,556
2021	$ 278,567	$ 3,220,598	$ (3,174,131)	$ 325,034

J. Provider Relief Funds

During April 2020, as part of the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act"), the U.S. Health and Human Services ("HHS") distributed $50 billion to providers who bill Medicare fee-for-service in order to provide financial relief during the COVID-19 pandemic. These provider relief funds ("PRFs") were allocated proportional to providers' share of 2018 patient revenue. On April 10, 2020, HHS immediately distributed $30 billion to eligible providers throughout the American healthcare system.

The Authority received approximately $584,300 and $1,200 on of PRFs January 27, 2021 and January 28, 2021, respectively. The PRFs are included in other income in the accompanying statements of revenues, expenses, and changes in net position as of the year ended September 30, 2021. No PRFs were received for the year ended September 30, 2022.

K. Concentrations of Credit Risk

Patient service fees from Medicare, Medicaid, and insurance providers accounted for approximately 38%, 17%, and 16%, respectively, of the Authority's patient service fees for the year ended September 30, 2022. Patient service fees from Medicare, Medicaid, and insurance providers accounted for approximately 40%, 17%, and 16%, respectively, of the Authority's patient service fees for the year ended September 30, 2021. Patient accounts receivable, net from Medicare and insurance providers comprised approximately 25% and 35%, respectively, at September 30, 2022. Patient accounts receivable, net from Medicare and insurance providers comprised approximately 30% and 41%, respectively, at September 30, 2021.

L. Subsequent Events

In preparing the financial statements, the Authority has evaluated all subsequent events and transactions for potential recognition or disclosure through March 6, 2023, the date the financial statements were available for issuance.
